

Please amend the claims as follows:

- 1. (Amended) A method for inhibiting cell migration, comprising [intervention of $\gamma 2$ chain interactions of invasive carcinomas with surrounding tissues by] exposing cells [an invasive carcinoma] to antibodies against [the] $\gamma 2$ chain domain III [chain] of laminin 5.
- 2. (Canceled) [The method of claim 1 wherein the antibody is monoclonal.]
- 3. (Canceled) [The method of claim 1 wherein the antibody is polyclonal.]
- ✓ 4. (Previously canceled)
- ✓ 5. (Previously canceled)
- ✓ 6. (Previously canceled)
- 7. (Canceled) [The method of claim 1 wherein said exposure of invasive carcinomas to the antibody against the $\gamma 2$ domain III chain of laminin 5 is *in vitro*.]
- 8. (Canceled) [The method of claim 1 wherein said exposure of invasive carcinomas to the antibody against the $\gamma 2$ domain III chain of laminin 5 is *in vivo*.]
- ✗ 9. (Canceled) [The method of claim 1 wherein cells of the invasive carcinoma are inhibited from migrating upon exposure to the antibody against the $\gamma 2$ domain III chain of laminin 5.]
- 10. (Canceled) [The method of claim 9 wherein the antibody is monoclonal.]
- 11. (Canceled) [The method of claim 9 wherein the antibody is polyclonal.]
- 12. (New) The method of claim 1 wherein the cells comprise cells derived from epithelium.
- 13. (New) The method of claim 1 wherein the cells comprise tumor cells.
- 14. (New) The method of claim 1 wherein the exposing occurs *in vitro*.
- ✗ 15. (New) The method of claim 1 wherein the exposing occurs *in vivo*.
- 16. (New) The method of claim 1 wherein the antibodies comprise monoclonal antibodies.
- 17. (New) The method of claim 1 wherein the antibodies comprise polyclonal antibodies.
